

Northern Virginia

March 27-28, 2007

Eurasian Innovation & Investment Forum

ABOUT THE FORUM

The Eurasian Innovation & Investment Forum will bring together more than 150 American company representatives, venture funds, and early stage investors to review business proposals from 12 leading Eurasian innovators in the fields of IT, environmental energy, and civilian security.

The March 27-28, 2007 Forum is a unique opportunity for local businesses and investors to enter into mutually beneficial collaborations with the Former Soviet Union's leading scientists, researchers, and innovators. The Forum is co-sponsored by CRDF, the Northern Virginia Technology Council (NVTC), & the Russian Foundation for Assistance to Small Innovative Enterprises.

FEATURED SPEAKERS

Luncheon Keynote, The Honorable **Jay M. Cohen**, Department of Homeland Security Under Secretary for Science & Technology Jay M. Cohen will discuss approaches to fighting and winning the global war on terror from a science and technology perspective. (top photo)

Conference Opening Remarks, **Anesh P. Chopra**, Secretary of Technology, Commonwealth of Virginia. (middle photo)

George S. Crosby, former President of Philips Electronic Instruments and President & CEO of United States Robots, will share his insights into how he successfully directed the sale of the United States Robots, and how he developed the strategy to take Quad Systems public while serving as its Chairman and CEO. While President of Philips Electronic Instruments he maintained liaison with NV Philips in the Netherlands and introduced new product lines in the United States markets. He will discuss the opportunities and approaches he sees for U.S.-Eurasia cooperation in the ICT space. (lower photo)
