

Softage complete skill list

At Softage we give special attention to mastering the use of up-to-date technologies, studying newly originated standards and working methods in the area of information technologies.

While developing software products we use modern, well, and proven technologies in practice. As a result we rapidly and qualitatively complete tasks set by our customers. The developed system fully satisfies customer requirements and contains a wide set of abilities for broadening the system functions in the future.

At the same time we wish to give our customers an opportunity to perfect their software products and applications developed using older technologies. For this purpose we retain specialists for working knowledgeable in working with these technologies.

Databases

Softage team has very strong background in database area - designing, optimizing (data structure, SQL queries and administration), migration. That includes Oracle, MS SQL, Interbase family, mySQL and more

- DB2
- FoxPro
- Informix
- Interbase
- MS Access
- MS SQL Server
- MySQL
- Oracle
- Paradox
- PostgreSQL

Operating Systems

- Free BSD
- GNU/Linux

- HP-UX
- MS Windows 9x/ME/NT/2000/XP
- MS Windows CE/Pocket PC
- Novel Netware
- Solaris
- Unix
- Windows Mobile 4.0
- Windows Mobile 5.0

Platforms

- Desktop PC
- Pocket PC
- Palm
- Casio Cassiopeia

Development Tools

- Borland C++ Builder
- Borland Delphi
- Borland JBuilder
- ErWIN
- GNU C/C++
- MS Visual C++
- Sun ONE Studio
- HP ANSI C++
- JDBC
- JDK
- Macromedia Flash
- Macromedia Flash Communication Server MX/ Macromedia Flash Media Server
- MS Visual Basic
- MS Visual J++
- MS Visual Source Safe
- Powerbuilder Foundation Classes
- Rational Rose
- UML

Protocols

- FTP
- HTTP
- IMAP4
- POP3

- SMTP
- SSL
- TCP/IP
- UDP
- WAP (WSP/WTP/WTLS/W-HTTP/MMS)

Technologies

- Active X
- ADO
- ASP
- ATL
- BDE
- CGI
- Client-Server Architecture
- COM/DCOM
- CORBA
- DAO/RDO
- HTML
- H.323, H.263
- IBM WebSphere
- Image processing
- JDBC
- MFC
- Microsoft .NET
- MIDAS
- ODBC
- OLE
- OOA/OOD (Booch, Coad/Yourdon, Fusion)
- Oracle Developer/Programmer
- QT
- SQL
- Sound processing
- STL
- VBA
- VCL
- Video compression
- Video/audio streaming
- UML
- Win32 API
- WTL
- XML

Programming Languages

- Assembly
- ASP
- BASIC
- Bourne shell
- C/C++
- C#, ASP.NET
- ColdFusion
- Delphi, ObjectPascal
- Fortran
- Java
- JavaScript
- Modula-2
- Pascal
- Perl
- PL/I
- PHP
- Python
- REALBasic
- SQL, Oracle PL/SQL, MS T-SQL
- Visual Basic
- Visual Basic For Applications (VBA)
